By Paul Rardin

Have you seen a copy of the school paper of Pahokee high school? It's a dandy! Articles in it were written by students from all sections of the Glades who attended the high school. I am reprinting several of the articles this week on another page, because of their Glades-wide interest.

If you have seen a copy of the paper you probably noticed that it has no names as yet. The students are conducting a contest to find the most appropriate name and the next issue of the paper will carry its new name. Several names have been suggested by the boys and girls and the contest will close in end today.

Frank Hobson's Pahokee Blue Devils will encounter the scraggy all-around fighting aggregation from Plant City tonight on Liverside field. The Hillsborough eleven has an excellent record behind it and will be one of the toughest on the Blue Devils schedule this season. Coach Hobson was non-committal today after the game when I talked to him. He made his home only claim that his boys "ought to win in their doing their best to win."

Rotary clubs of Pahokee and West Palm Beach are sponsoring an inter-city picnic. I'm planning to be there. The picnic is being held at the Glades Hotel. I know something about the picnic because the ladies serve to the Blue Devils Rotarians. The meeting is being held in an effort to promote cooperation between the Glades towns and the coastal area. An excellent program has been planned.

Petty thieves are making life miserable for business men in the Glades. Several businesses have been broken into and cash and merchandise removed. Something must be done to stop this. One of the fellows who is trying to make a living without work, is going to be greatly surprised when he is caught. He is walking out of a place right into the arms of the law. And, when one of the thieves is caught, I'm in favor of putting him out of circulation for a long spell. Maybe a few jail sentences will bring about the ending of this petty thievery business.

A dime a week! Who wouldn't donate a dime a week to the community chest or whatever you want to call it in order to help the business of the community? That's the plan of the Pahokee-Canal Point Area. All employees are being asked to donate a dime from their weekly wage. This sum goes into a general fund from which deserving folks are helped. It is a good idea. A front would put thousands of people out of work, if they co-operate in the plan. It is a good idea but it calls for the fullest cooperation of all business men, packing house operators and employees. If you haven't signed on the dotted line today would be a good day to do it.

The bridges across the canal in Belle Glade fast nearing completion. It is going to be an excellent piece of construction when the finishing touches are put on. The road department will start soon to build the approaches and are long traffic will be flowing over the new structure.

Reid Clifton of Pahokee has been chosen as the new state road patrol. Folks in the Glades will regret to learn that Reid and his wife are to leave and become residents of some other part of the state.

New Overpass Will Be Opened To Public

The new overpass at West Palm Beach, Fla., is the first of the new overpass at South of Broward. It is a fine piece of construction. The bridge, built by the state road department, will start soon to build the approaches and are long traffic will be flowing over the new structure.

Dime-A-Week Plan Gaining Momentum Among Transients

Those Who Co-Operate Will Be In Good Graces Of Committee

Officials of the Community chest, recently organized in the Pahokee and Canal Point area, urge those who have aligned their intention of co-operating to send in their pledges immediately. Officials say that a good response was forthcoming from the business men and packing house operators who are caught short, and should soon be set aside to care for transients when work is slack.

The plan, as instigated by the community chest, calls for asking each employee in the area a dime a week—the money to go into a general fund, from which needy transients can be taken care of without work when they are given an order on the general treasurer who will be honored at grocery stores.

It is the plan of the committee to have some member of the community chest, calling for asking each employee in the area a dime a week—the money to go into a general fund, from which needy transients can be taken care of without work when they are given an order on the general treasurer who will be honored at grocery stores.

Under the plan set up by the committee an investigator will be sent to the homes of the transients. After a thorough investigation as to the needs of the applicant he will be taken care of in proper order. Transients who won't work and won't co-operate in the plan, will be out of luck when a transients' night any night comes along. However, those who participate and donate their dime weekly will be in the good graces of the committee and will be given help when actually needed.

Bazaar Planned For Thursday, Nov. 16

The Ladies Aid of the Methodist church of Canal Point have completed plans for a bazaar to be held on Thursday, November 15. In connection with the bazaar, a dinner will be held and both events will take place in the building across from the post office. The bazaar will be held in the afternoon and the dinner in the evening. Turkey dinners, served by Canal Point, will be taken to the bazaar. The bazaar is being prepared and the coming affair should be well attended.

Lake E. Okechobee Survey Being Made

A geographical survey engineer of Washington was in Lake Harbor the first of the week and installed a tide gauge and a wind direction indicator at Miami Lakes. Lock Tender W. O. M. will take readings daily and file his reports at the office in Ocala.

Wind tides have been strong in the Everglades over the past few days. Heavy rain of Sunday night, due to a high cold north from the Gulf of Mexico, brought early Sunday morning. The rain was much lighter in the South Bay-Bean City-Lake Harbor section than reported on the other side of the lake, the wind has damaged maturing crops materially, blowing off a large number of stalks and leaving them ready to pick or nearly so.

The islands at the south end of the lake have been almost submerged by these wind tides. A. C. Schuler living on the north end of Krome Island reports that the water is flowing across the island road 150 yards wide in places, with the road flooded between the islands. The water is moving at a standstill. Roy E. Hildon said that the water is flowing at a standstill. Roy E. Hildon said that the water is flowing at a standstill. Roy E. Reid Clifton Named As One Of 34 Patrol Members In State

Pahokee Police Officer Is Chosen From Among 4,000 Applicants

Reid Clifton, Pahokee police officer, has been notified to report in Bradenton Sunday afternoon to attend the four-weeks training school for members of the state road patrol. Mr. Clifton has been a member of the Pahokee police force for several years and is well qualified for the new job as a member of the state patrol. He is leaving Sunday afternoon for the special school in Bradenton.

An Associated Press story out of Tallahassee yesterday told of the selection of 34 candidates from among 4,000 applications. While the men are in training in Bradenton they will receive \$75 and expenses and when put to work on patrol duty they will receive \$135 a month, with increase to \$125 a year, until the maximum of \$200 is reached.

According to the rules set up by the state department of transportation, the patrolmen will be assigned to duty in sections of the state apart from their home areas. Mr. Clifton will be stationed here in the Glades where he may be sent to the Broward county.

Director W. F. Reid and Capt. H. N. Kirkman of the patrol will direct the Bradenton school. The course will be conducted by representatives of the Federal Bureau of Investigation, the American Red Cross, the National Safety Council, the attorney general's office, and other agencies. Forty men will attend the school.

Sportsmen Have Had Their Last Fling Killing Deer In 400,000 Acre Preserve And Paid Hunters Have Taken Job

Wednesday Morning State Slaughterers Started Wipe-Out Drive

TALLAHASSEE, Nov. 2.—Sportsmen had their last fling Tuesday in a 400,000 acre game preserve located in Columbia county and Wednesday paid hunters took up the task of wiping out soft-eyed deer in a campaign to eradicate the fever tick. Since July 1, sportsmen have killed about 1500 deer in the area established as a game refuge 10 years ago and closed to hunting until the 1933 Legislature authorized the deer slaughter as a tick control measure.

Now the fall dry season has come to the vast area on Florida's lower West Coast and sportsmen have been kept out because of danger of forest fires being started. Paid hunters—getting \$80 a month—will be employed by the State Game and Fish Commission and the Federal Bureau of Animal Industry.

Slaughter of the deer was authorized by the state legislature. The animals carry fever ticks in South Florida and the experts said the ticks could not be killed without killing the deer. Cattle can be rounded up and dipped in tick killing solution.

Deer are being killed in tick-infested sections of Ocala, Highlands, and Orange counties. These areas will be declared tick-free by next year. Dr. J. V. Knapp of the State Livestock Sanitary Board said the campaign was "highly successful" in those counties.

Ten years ago, Barron, Collier, and Monroe counties had a million acres on the lower West Coast, operated with the State Game Department. The State Game Department embraced part of the Big Cypress Swamp in the Florida Everglades. Swamp, turkey and other game were killed and then game spread ticks.

Sportsmen hunters had to obtain regular State licenses and a special Collier County license at \$5.00 each to participate in the hunt. They were not allowed to kill turkey and small game, there was no limit on the number of deer a hunter could kill, nor was there any prohibition against killing deer by any means whatsoever. A hunter could shoot on the ground or with lights at night.

With sportsmen out, the paid hunters will eliminate the remnants of the deer with trailing dogs and horses. Walking is difficult in the swampy areas, and the deer are being killed with frequent swampy areas. E. C. Bateman of the Federal Bureau of Investigation said: "Our job will be to kill every deer in the area."

Plans Are Complete To Hold Seal Sale

The regular Florida hunting season opens November 20, when the state seal sale will be held. The sale will be held at the state seal sale. The sale will be held at the state seal sale.

Organization plans were completed in West Palm Beach Tuesday for the annual Christmas health seal campaign by the United States Public Health Service and Health Association. News From The Pahokee School Paper

These Items Were Prepared By Students of the School And Are Reprinted Here Because of Their Glades-Wide Interest.

GIRLS' SPORT CLUB

Since there is no regular athletic program for girls included in the Pahokee High School curriculum, the girls decided to do something about it in the way of a club. During the regular activity period on Tuesday and Thursday, about one hundred and ten girls gather for the Girls' Sport Club.

A number of athletic activities have been planned to be included by the club during the year, but for the present the girls are working hard to give the Blue Devils some competition on the football field.

The activity is in the form of a Drill Team, to be appropriately titled the "Devilites." At present the drill team is in its infancy, but we have high hopes that we shall have an opportunity to perform for at least the last one or two of the football games.

Oni Fay Padgett and Phyllis Lee have been elected to work out drills for the team, and to Armstrong and Doris Lee Carpenter are our drummers. We have not at yet selected our drum-majors, but shall select them in the very near future.

We shall have a good drill team and we expect the support of the whole school, at least in the form of applause when we perform. Elizabeth Hobson, Sponsor.

ART CLUB

Thirteen students, disregarding the superstition allocated to their number, have enrolled in the Art Club. None of them expects to become an artist, but all wish to learn something about the masters, their work, why they chose their particular subjects, what their leading characteristics are. In short the club, will aim at art appreciation.

While studying masters, each pupil will try to make some practical contribution in the way of sketches, maps, carvings, woven articles, toolled leather, etc.

CURRENT EVENT AND DEBATING CLUB

On account of the desire of some of the students for a more thorough understanding of the events in the World today, and their ever-burning desire for arguing, a club for this purpose has been organized to meet during the regular activity period on Thursday of each week.

The Current Event and Debating club has elected for its officers: president, Mack Murphy; vice-president, David Unwin; secretary and treasurer, Billy Stucky; reporter-editor, Claude Jones; sponsor, Robert Jones.

Frank Hobson, Sponsor.

THE PRESS CLUB

The Press Club has a membership of 26 students ranging from the seventh grade through senior high school. At our first meeting we elected: J. W. James, president; Gerald McFate, vice-president; Carolyn Jean Hudson, secretary.

Although none of us is experienced in journalism, our ambition is boundless. We have taken as our project for this year the publication of the Pahokee High School's first complete newspaper. We are grateful to the townspeople of the lake area who have advised with us and thus made the presentation of our first paper in its printed form.

It is with mingled feelings we present to our readers our first issue. We are proud of our offspring, and yet we are painfully conscious that flaws will appear in our finished product that were not discernible when we envisaged our dream paper.

PAN-AMERICAN CLUB

The Pan-American club held its first monthly meeting of the new school year last Thursday night at the high school auditorium. Former president Joe Tom Boynton opened the meeting and presided over the election of the new club officers. New officers are as follows: President, John Kautz; vice-president, Oni Fay Padgett; secretary, Doris Jordan; treasurer, Juanita Howell; sergeant-at-arms, Osborne Boyer; and sponsor, Mrs. Willis.

After the business meeting the entire club forgot their coming six weeks exams and enjoyed themselves immensely playing games directed by Erma Jones. After the game period refreshments were served and the meeting was adjourned. Next meeting will be held on the third Thursday in November.

On Wednesday the following initiatives will parade in their dance caps shooting good-morning in three languages: Portuguese, Spanish, and French. The new members are: Harold Fletcher, Dorothy Tucker, Kath-

erine Shearer, Elaine Freedlund, Mary Bordenaux, Frances Elam, Helen O'Connell, Debra Wells, Ann Bartlett, Elizabeth Bregger, Rosalie Waddell, Nena Gleason, Helen Jean Wedgworth, Calvin Spooner, and Melvin Spooner.

Here Are Notes About The Lives And Habits Of Our New Teachers

This Article Will Acquaint You More Thoroughly With Them

This year it seems that we have quite a few new faculty members coming to the Pahokee High School with and, after all, we want to know our new teachers as well as we can. To know them as well as we can, we have arranged a questionnaire with the following results:

First of all we have a new principal, Mr. D. D. Caudill, who was born and educated in Kentucky. He was the principal of the Moorehead High School for four years and principal at Kelsey City for two years before coming to Pahokee. He says that he enjoys his position "very much." In his opinion the student body is very courteous and he also added that he thought our team would beat West Palm Beach.

Miss Betty Lou Ingberman, a new teacher in the elementary building, was born in Richmond, Virginia, and attended the Florida State College for Women. This is her first year of teaching and she likes teaching in Pahokee "very much." Some of her preferences are: in music—symphony; in sports—dancing; in colors—red; in books—"And the Rains Came"; in food—fried shrimp (dishes spicy); in movie stars—Powell and Myrna Loy; in flowers—blue violets. She says she is a little bit of an extrovert; she thinks our boys are girls; she is "all right"; prefers brunettes to blondes; admires sunny boys and girls; thinks football is wonderful and says it's amazing how the Pahokee fans cheer behind the team.

Mr. Ned Koche, a new teacher (algebra, plane geometry, and mathematics), in the high school, was born in Waterville, Maine, and attended the Moran and State Normal in Indiana. He has been teaching for twenty years and thinks teaching in Pahokee is "wonderful." Some of his preferences are: in music—classical; in sports—hunting birds (quail, turkey, etc.); in colors—purple and gold; in books—science; in food—gooseberry pie (dishes can fish balls); in movie stars—"all are bum" but his favorite actor is Alonzo Thier. He thinks football is a "great game" admires originality; prefers red-heads; says of the Pahokee boys—"All will be met." When asked if he ever had been a jitterbug, he replied, "Never."

Mrs. Douglas Mock, a new teacher (Latin and English) in the high school, received her degree from the Georgia State College for Women and later studied at Tallahassee. After teaching school for a number of years she came to Southern Florida in 1933 and substituted for different teachers at various times last year. This year she is a member of the faculty and she says she likes it here very much. She enjoys reading but prefers tennis, golf, and the beach. She is planning to turn some of her hobbies into gardening, getting shrubs and flowers started.

Mr. Raymond Cagui, the new assistant coach and also teacher of social studies in high school, was born in Pittsburgh, Pennsylvania. He attended Prep school at Potomac State, West Virginia and Stetson and he taught two years in high school and one year at Stetson before coming to Pahokee. He likes teaching in Pahokee, says our football team is a good one, thinks we'll win over West Palm Beach and says our hardest games will be Lawrenceburg, Plant City, and West Palm Beach. Some of his preferences are: in sports—all of them; in colors—doesn't know; in music—singing; books—fiction. He thinks the Pahokee girls are "all sweet," is neutral concerning the preference of blondes or brunettes; can't answer why he doesn't like to coach girls in basket ball; and admires a sense of humor.

Miss Kennedy, our commercial teacher, was born in Rochester, New York, and attended Florida State College for Women. This is her first year of teaching and she says she "enjoys it." Some of her preferences are: in sports—swimming and dancing; in colors—blue and pink; in music—all types; in movie stars—Deanna Durbin, Mickey Rooney, Robert Montgomery, Jeanette MacDonald and Nelson Eddy. And thinks Leslie Howard and Spencer Tracy are the best actors in motion pictures. "A Star is Born." She prefers

blondes; admires perseverance and respectfulness in boys and girls; likes fried chicken but hates stew and spinach. As for the fitness of our football team she remarked, "As far back as I can remember it has always come out on top." She says she's not a jitterbug but a few students will dispute her word about that.

This is summary of our new teachers and their lives and individual selves. We do well so far in getting along and I imagine we will continue to do so.

Junior's Discuss Plans For The Annual Banquet

The Junior Class held their regular meeting Friday, October 20, 1939 with President Kyle Hand in charge of the business.

The most important business item was how to raise money for the Junior-Senior Banquet. The following committees were appointed: Advertising Committee: Edgar Wilder, Vivian Cross, and Oni Fay Padgett. Rummage Sale Committee: Doris Willis and Helen Jean Wedgworth of Belle Glade, Gwendolyn Brown of South Bay, Jane Sims and Carolyn Jane Hudson of Canal Point. Social Committee: Gene McWhorter, W. A. Stevens, and Billy McKinstry.

At the meeting next Friday Junior Fins will be selected.

Warning Service Is Opened By Federal And State Groups

Belle Glade Again Has A Field Man On The Job

LAKELAND, Nov. 2.—The Federal-State Frost Warning Service began its fifth year of operation on Nov. 1, Meteorologist Eckley S. Ellison said today.

As in previous years, the Lakeland bureau will issue two daily temperature bulletins, one at 11 a. m. and the other at 4 p. m. Emergency bulletins will be issued at 9 p. m. in case of a major freeze, Ellison explained.

In addition to the temperature bulletins, the office also will issue a daily weather bulletin for ship- pers. Due to the European war, Ellison said all Canadian weather reports will be omitted from the shipper's report.

The meteorologist said 81 forecast stations will comprise the primary network covering the entire peninsula. The station at Blanton has been eliminated, the area being covered by the new

Brooksville station. A new station has been added at Denham near the Hillsborough-Pasco County lines.

Assisting Ellison in the Lakeland office will be Alfred L. Lorenz and Miss Virginia L. Scarborough. The eight field men employed by the bureau are: Armand L. Origa, Gainesville; Chas. C. Reeves, DeLand; Ray T. Sherouse, Orlando; Philip J. Powell, Winter Haven; Leonard G. Pardus, Bartow; Bernard H. Moore, Bradenton; James W. Milligan, Belle Glade, and Milton Blane, Fort Lauderdale.

You can help make Thanksgiving happier for some youngsters by making your contribution now to the Children's Home Society of Florida, Jacksonville. Donations of food, clothing or cash are needed.

Touchnet Is In Governor's Race

Dade City, Nov. 2.—"Touchnet for Governor" state headquarters were opened in Dade City this past week in support of Fred L. Touchnet, an avowed candidate. Touchnet has not as yet made his official announcement, but is quoted by the Dade City Banner as stating: "When I make official announcement and officially qualify for the Governorship by paying the starting fee, I will at the same time withdraw from private business and devote my full time to the campaign, visiting every county in the state and practically every precinct in each county."

Common sense from a church bulletin board: "If your knees knock, kneel on them."
